CYRCA, INC. RECEIVES URAC CASE MANAGEMENT ACCREDITATION

INDIANAPOLIS, IN – Cyrca, Inc. announced today that it has been awarded Case Management Accreditation from URAC, a Washington, DC based health care accrediting organization that establishes quality standards for the health care industry. URAC's Case Management Accreditation standards require companies to establish a process to assess, plan and implement case management interventions.

"Cyrca is honored to receive Case Management Accreditation from URAC," said Mark Johnson, President and CEO of Cyrca. "We are very pleased to be recognized in the industry for providing outstanding services. Such a distinction also underscores the quality of our work with customers, patients, clients, payors and providers by demonstrating compliance with national standards for case management services."

"By applying for and receiving URAC Case Management Accreditation, Cyrca has demonstrated a commitment to quality health care," said Charles Stellar, URAC Board Chair. "Quality health care is crucial to our nation's welfare and it is important to have organizations that are willing to measure themselves against national standards."

URAC's Case Management Accreditation standards address approaches to ensuring appropriate patient protections have been established, such as policies for confidentiality of patient information, informed consent, dispute resolution and other issues. The standards cover staff structure and qualifications, quality improvement, information management, oversight of delegated functions, ethics, complaints, and the case management process.

URAC, an independent, nonprofit organization, is a leader in promoting health care through accreditation and certification programs. URAC's standards keep pace with the rapid changes in the health care system, and provide a mark of distinction for health care organizations to demonstrate their commitment to quality and accountability. Through its broad based governance structure and an inclusive standards development process, URAC ensures that all stakeholders are represented in setting meaningful standards for the health care industry. About Cyrca

Cyrca is a leading developer of specialized medical insurance programs. Cyrca was formed to focus on the design, implementation, and operation of customized programs delivering cost savings to clients (HMOs, provider groups, and government agencies). Differing itself from other firms choosing to offer certain specialized medical programs as an ancillary line of business, Cyrca is solely dedicated to offering tailored catastrophic products and services. Cyrca has been able to acquire the services of case managers, claims managers, and medical directors who have serviced the catastrophic care areas for over ten years. This allows the company to ensure clients receive the most current and appropriate levels of care at the most reasonable expense. Cyrca provides its clients expertise combined with convenience, access to acceptable security, competitive pricing, excellent information/reporting, as well as stability and service.
